# WHY CHOOSE US?

## Sharing tips of the trade from the professionals

Our programs are written by high performing sales professionals. They are in the field, selling. They are at the top of their game.

The trainers share tips of their success to enable you and your team to Grow your Business FAST. They have over 20 years sales experience each and are also Trainers of NLP (Neuro Linguistic Programing), Hypnotherapy, Time Line Therapy™ and Coaching.

Our philosophy is to assist our clients to focus their attention on the client (not on themselves). This means, as sales people, we pick up everything the client does and says (and doesn't do or say). This 'outward' attention means we get to understand our client much better, allowing us to create solutions which fulfills the clients'

need and delivered in a way which aligns with how they operate. **This ultimately separates you from competitor offerings.**

### What's the outcome?

When your team's focus is 'outward' they sell with integrity. Their clients achieve their goals - and so become loyal and refer you on. Your sales team know how to maximise every opportunity, up selling and growing their business quicker. Sales people become empowered, motivated and full of confidence.

### Why is it so successful?

**It's simple. It's obvious. It's easily remembered and it's flexible.**

In every workshop we've run, participants say "this feels exactly right. It feels like the professional way to sell and if I were a client and someone approached me like this I would buy from them".

## STAGE 1

## SALES ACCELERATOR

Most popular – great for quickly up skilling your team to hit the ground running with powerful techniques across all the essentials of finding and converting a sale. Expansion of skills to sharpen the tools and expand the knowledge of even the most experienced sales person.

2 days

**Level: beginner through to Sales Manager.**

**Summary: 7 foundations of the sales process.**

**Exploration, Listening, Objections, Negotiation, Managing Clients'**

**Expectations, Business Development, Presenting.**

### TOPIC 1: Exploration & Selling

Why do people buy? How to effectively sell your product, service or idea. How to be the expert. How to be professional.

Essential underpinning to every business transaction, critical to the success of the business.

**Covering:** Exploration like you've never known it before. Mind-shift on how to elicit information from your client. Exploration of the clients needs, by framing and questions that keep that client discussing what they need - which arm you with more than 20 core areas of information including:- information, needs, drivers, trust, value, beliefs, Internal Representations, how to be creative... (and more)!

Once elicited, this puts your sales person in the most professional, powerful position imagined. Allowing them to simply and easily respond by feeding back the right solution in the client's language and style and in a way which makes total sense to the client.

**Outcome:** Total confidence in ability to put forward a solution (delivered in the clients style) which is so perfectly aligned that you get the business. You are the professional. You are the Expert. Your solution is the one that is now obvious. Get that contract out there and then. The deal is done.

### TOPIC 2: Listening

The backbone of all communication.

**Covering:** We are all listening aren't we? Exercises that shake up that theory.

**Outcome:** Awareness of when I'm actively listening and when I'm in default mode. How your client listens and what to do to ensure they hear what you are saying in the way you want them to.

### TOPIC 3: Objections

Understanding what this really means and how to convert into a sale.

**Covering:** Different types of objections. Understanding what the objection means. What about if the potential client keeps smiling and saying 'I'll be in touch' but that doesn't happen - those that can't be straight with you...

Insight to how we feel and react to feedback and objections.

**Outcome:** Embracing objections and using them to forge more meaningful relationships that get the sale.

### TOPIC 4: Negotiation

Successful negotiators are created not born.

**Covering:** Preparation, techniques, styles, mindset.

**Outcome:** Confident, successful negotiators who have a plan of action and all bases covered. Professionals who shift the focus off price and onto aligning the perfect solution (watch how the price negotiation just disintegrates or becomes less important to the client).

### TOPIC 5: Managing clients' expectations

Service excellence. Managing tricky situations.

**Covering:** Servicing excellence, communication styles. Buying Signals. Building client relationships. How to ensure your client is sold on all your products all the time. How to manage them their way. What to do if it's all unraveling and the wheels are falling off...

**Outcome:** Understanding what is motivating your client and how they want to be communicated with. Effective use of emails, phone calls and meetings.

### TOPIC 6: Business Development/Prospecting

Essential to the growth of your business. How to make prospecting easy and comfortable.

**Covering:** Energy. Mindset. Who to target, when, how, what to say, what to do! How to convert, Relevance, Timing, Emails, Phone calls, networking, cold calling.

**Outcome:** Someone who embraces prospecting with a clear head, consistency and genuine enthusiasm.

### TOPIC 7: Presenting

Structure to ensure seamless delivery of your message.

**Covering:** Plan, prepare and execute. Structure, purpose and clients expectations. Observing and adapting. Next Steps.

# FEEDBACK

**Manny Rodrigues**  
Business  
Development  
Manager at  
Gumtree.com

It was great to get training off someone who is in the sales field and not just someone reading off a script. I found the course very rewarding and I have been in the sales field for over 14 years. This was one of the most rewarding training courses I have attended. All my colleagues agreed with me. Often you forget so much being in the sales field so long so this was a great refresher as well as bringing me useful tools and methods which I put to use immediately.

**Jordan Smith**  
Head of Branded  
Content, Audio  
Network Australia

From the very first session with Charmaine it was like a light bulb going on! That first session changed the way I think about sales and my clients! I now enjoy monthly sessions and therefore many more lightbulb moments.

**Richard Gartner**  
Proprieter, Safe T Stop

Learned enormous amount on how to close the sale in a faster way. The course has helped us enormously – sales are up and the sales team are more positive.

**Elena Di Palma**  
Group Manager  
Westfield

Charmaine really understands how to motivate Sales People. Her ideas and tools are put forward in such a way that the team can implement them immediately to get results.

**Sally Cull**  
GSM  
WIN NBN

Charmaine's sessions are engaging, enlightening and full of very useful, practical sales methods to drive revenue.

**Darren Matthews**  
APAC Sales Director  
at CBS Interactive

As a sales professional with 27 years experience; I was admittedly dubious of the value that yet another sales training session would deliver.

I thought I'd heard everything about 'active listening', could have written and sold a book about 'buying behaviour' and would receive a thumbs up if ever there was a test about reading 'body language'. How wrong I was.

Charmaine delivered new information on these topics in a informative and uniquely engaging way and did so while explaining the neurological effect of her methods which helped my team and I truly understand their value.

I would recommend Charmaine to any sales professional regardless of their perceived knowledge and look forward to implementing her teachings in the years to come."

# GET IN TOUCH

We care about you, your needs, your goals, your vision.

Thought and consideration has been put into each and every evolving exercise to ensure participants are engaged, enthused and know how to operate to maximum effectiveness. The result is confident individuals that go out and find, recognise and convert every opportunity. Easily. With integrity.

Sales training offers us a lot of psychology – firstly your team feel invested in, secondly we handle the job (with you) of getting them open minded and ready by tasking and liaising before an workshop. Thirdly, we understand human behaviour, how to motivate people. We know how to quickly up skill them. If they are relaxed and having fun they embrace and pick up lessons

quicker. We teach about how to be in charge of our 'state'. So, that means how to be positive, congruent and bullet proof regardless of the challenges.

The essential training, for behavioural change, comes from the Inner Game. 'Mindset' and 'Skills' have equal importance. The right mindset is, quite frankly, a game changer.

We look forward to hearing your needs and seeing how we may be of support to you during this next phase of you and your sales team's career.

(Public workshop places can be booked directly through the website on the Public Workshops)
